PROJECT TITLE : UNIT OPERATIONS I

PERIOD COVERED : APRIL 17 - MAY 20 1981

WRITTEN BY : Karbacher-P. (KPA)

NINOMASS

On Thursday May 7 1981, a meeting was held in Sursee with Dr H.P. Pfirter UFA Winterthur and Dr A. Durrer VLGZ Sursee (1). First, the report (2) we received from UFA Winterthur concerning the test results Ninomass for chickens was discussed.
As R&D Neuchâtel is interested in continuing to test Ninomass on animals, Dr Pfirter and Dr Durrer explained what should be done in the future.
Dr Pfirter will establish a detailed program setting the next steps and defining how many kg of Ninomass will be needed.
